

Sibling conflict: power, safety and repair

Original support worksheet | School-age children and caregivers | Reviewed 2026-10-10

Use fictional or appropriately de-identified notes. Write, draw, dictate or point. Not a validated measure, diagnostic test or crisis service.

Event: What happened; whose account?

Power + choice: Can each child leave or refuse?

Safety decision: Protection/safeguarding or ordinary coaching

Adult responsibility: Resources, access, follow-through

Voluntary repair if safe: Specific action; no forced forgiveness

Event, fear/injury and what is observed versus reported

Power/choice: who can decline, leave or seek help?

Adult protective or environmental action and owner

Safe follow-up; repair only if appropriate and voluntary

Next step: who will do what, by when, and how will we review helpfulness or harm?

Injury, threats, coercion, sexual harm, abuse or a child unable to stay safe requires appropriate urgent/safeguarding response. Do not use equal blame, forced forgiveness or mediation to manage abuse.
